Standard Mahogany

All Standard Mahogany Series feature Mahogany tops, backs, and sides for the traditional ukulele look and tonal characteristics. The Boulder Creek "Dual Port System" projects the sound to both the audience and the player. Moving the front sound port away from the center of the soundboard helps to increase volume, tone, and sustain on all Boulder Creek ukuleles. Die cast tuning machines and perfect fret leveling make them stay in tune and play easier than ukes costing much more. For those players that want to amplify their uke, the Concert, Tenor, and Baritone models are available with the UK-300T Preamp System with built-in tuner with bass and treble controls.

Deluxe Mahogany

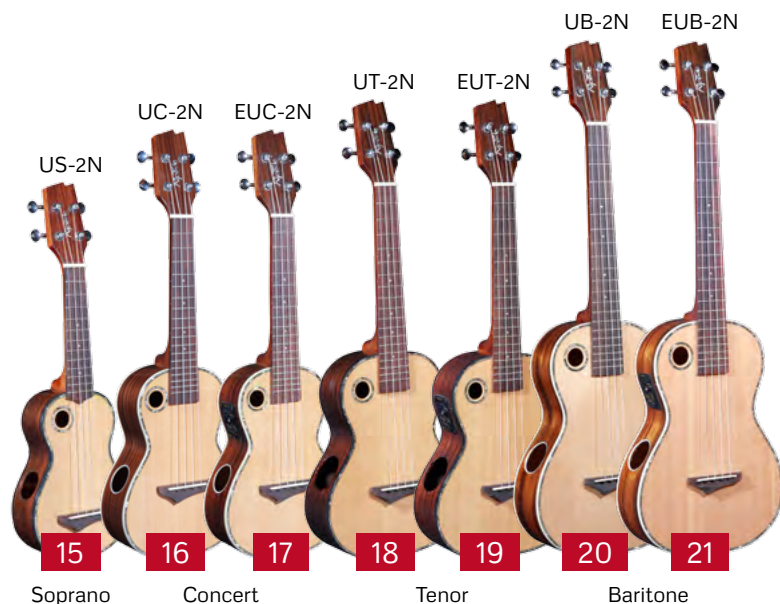

The Deluxe Mahogany Series is designed for the most discriminating players. All models feature Mahogany backs, sides, and tops. Abalone binding is used around the body and front sound port. The EUC-5NG Concert and EUT-5NG Tenor models feature solid mahogany tops for even more tone and sustain. All Deluxe Mahogany Series models are equipped with the UK-300T Preamp System with built-in tuner and tone controls.

Spruce Top / Rosewood Back & Sides

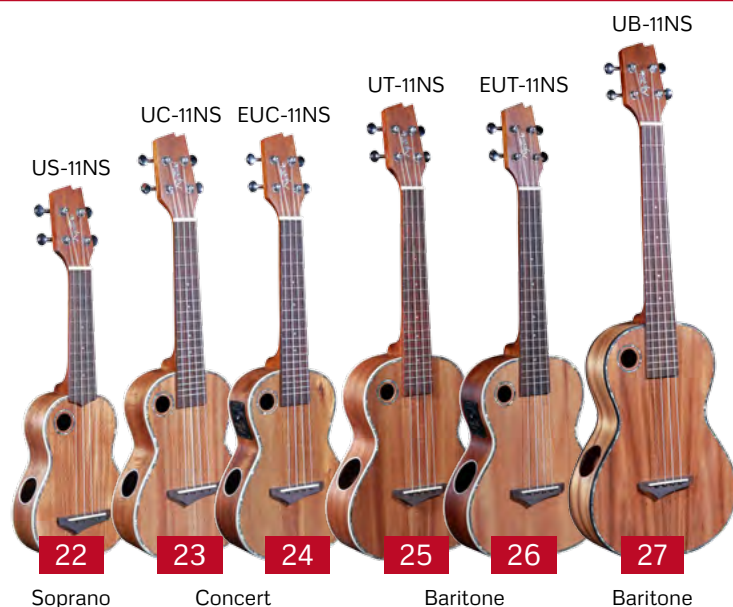

All Spruce & Rosewood models feature Solid Spruce tops for the ultimate in tone, volume, and sustain. The backs and sides are made of Rosewood. Included is the "Dual Port System" and die cast tuning machines. All Acoustic Electric versions feature the Boulder Creek UK-300T preamp and pickup system with built-in tuner and tone controls. All Spruce & Rosewood models also feature abalone binding around the body and the front sound port. The finish and detail work on these fine instruments is second to none. There are lots of ukuleles on the market, and then there's the Boulder Creek "Riptide" Series. Not just different, better.

Spruce Top / Rosewood Back & Sides

Solid Top Acacia

UK-300T Preamp

The Boulder Creek UK-300T Ukulele Preamp and Pickup System includes a built-in Chromatic tuner. This system features Bass and Treble controls and utilizes a spiral cable piezo that has incredible dynamic range, and clear distortion-free tone.

Ukulele Straps

1 1/2" cotton ukulele strap with moveable leather pad, leather ends, and tri-glide adjustment featuring embroidered Riptide logo. Adjustable to 38". Available in black or khaki tan.

Ukulele Gig Bag and Hard Case

Our hardshell case features black plush interior lining, heavy-duty gold hardware, black Tolex covering. Imprinted with Riptide logo.

Our Riptide gig bag is made with reinforced stitching, high quality zipper, durable handle, shoulder strap system for backpack style wear and large zipper pocket. Riptide logo on front.

Cases and gig bags are available in Soprano, Concert, Tenor, and Baritone sizes.
